

KARLA ORTIZ

ortizk@live.com | github.com/ortizk | www.karlaortiz.xyz

A former creative professional turned full stack developer with a backend focus. Dedicated to clean code and cutting-edge technologies. A transparent and efficient communicator with excellent soft skills and product life-cycle knowledge.

PROJECTS

OffLeash — *Find dog friends in your area for your dog*
Node/Express, Mongo, React, JavaScript, Materialize

A full stack app allowing users to find dogs and their owners in their area with the common interest of socializing their dogs with other dogs.

Black To Green — *An app for plant lovers with black thumbs*
Express/Node, JavaScript, JQuery, Mongoose, Mongo, Materialize

A full stack app with hearty, hard-to-kill plants and care instructions. Users are able to save favourite plants and leave their own tips.
